

This is to inform you that K-LOVE radio is a very important part of my community. It provides a radio station that my children can listen to without hearing inappropriate material. There are no other stations that make that possible. I DO NOT want K-LOVE displaced by an LPFM broadcaster. If K-LOVE were displaced, I know that this would negatively affect my community because almost everyone I know listens to K-LOVE at least part of the time. I have been a K-LOVE listener and financial supporter for over two years now. I support it not only for what I get out of it, but because I see the effects of negative musical influences on the children of my community. I want this station on the air so these same kids can have a positive alternative to the other stations. I teach D.A.R.E. in the schools, and I know that many young children depend on this station as their source of music. If it were taken away, they would find another station to listen to. That is the thought that scares me the most. Please do not displace K-LOVE with an LPFM.

Respectfully,
Scott Harvey
